Innovations
and Autumn–Winter Campaign 2019/2020
Kraftform Micro Big Pack

Wera Micro screwdriver set for fine mechanical screw connections. By supporting the hand on the rotating cap, and by the fast rotating zone below the rotating cap, lightning fast turning is possible. Time-consuming hand switching is eliminated. Storage and transport in a robust roll-bag, so the correct tool is always at hand. With "Take it easy" tool finder: colour coding by profile and size stamping.
**Kraftform Micro**

"Take it easy" Tool Finder

Screwdrivers with "Take it easy" tool finder: colour coding according to profile and size stamp.

**TORX® HF profile**

In tight assembly or disassembly situations, for example in engine compartments, it is not possible to securely hold the screw with the hand on the screwdriver, and the screw subsequently often gets lost. Lengthy searches or the loss of the screw (with the associated danger that could bring about) are the consequence. The HF tools developed by Wera are ideal because they feature an optimised geometry of the original TORX® profile. The wedging forces resulting from the surface pressure between the drive tip and the screw profile mean that the screw is securely held on the tool!

**The refined screwdriver for electronics technicians**

The Kraftform Micro, with its three zones and their specific arrangement, satisfies these requirements perfectly. The free-turning cap that provides support for the hand works with these advantages, enabling quick and easy precision work.

**NEW**

**Kraftform Micro Big Pack 1 Screwdriver set for electronic applications**

* Optimised for Asian PH screws
* On the output side, the blade is turned to a nominal length of 10 mm.
* Size Ø modified according to JICS 0 (Japanese Camera Industrial Standard)
Kraftform Kompakt VDE with Knipex pliers

Individually tested tools as per IEC 60900 at 10,000 V for safe working at the approved voltage of 1,000 V.

14 VDE interchangeable blades (each 154 mm long) with reduced blade diameter (articles KK 60 i 0.4x2.5 and KK 67 i TX 10 conventional diameter), so that sunken screws and spring elements can be accessed and actuated. Two 817 VDE blade-holding handles for Wera VDE interchangeable blades; Kraftform handle for ergonomic work; in robust belt pouch. One pair of Knipex VDE 13 96 200 electrical installation pliers; the pliers replace up to 6 individual tools for electrical installation: cutting, stripping, gripping, bending, deburring and crimping - all in one tool. With pawl for gentle gripping. Chrome-plated for better rust protection, with insulated multi-component grip sheaths.

Kraftform Kompakt VDE

Individually tested

Each Kraftform Kompakt VDE set has been tested individually at 10,000 volts, in accordance with IEC 60900. This ten-times-higher testing load guarantees safe working at their maximum permitted load of 1,000 volts.

Handle/interchangeable blade system

The system “one handle – many interchangeable blades” makes Kraftform Kompakt VDE compact screwdriving sets for in-house as well as mobile electrical applications out of the sets. The belt pouch is practical for tidy storage and transportation. Also available with electrical cabinet keys conforming to the industrial standards.

1) With friction ball, for manual nut spinner sockets

Zyklop Mini

The Zyklop Mini 1 can withstand at least 65 Nm. That is far more power than can normally be transferred to such a small tool.

Rapidaptor holder

Rapid bit change without needing any additional tools. One-hand operation with a freely spinning sleeve for simplified guidance of the tool.
NEW

Bicycle Set 4

9-piece set in pouch

Application: Hexagonal socket screws and TORX® screws

Design: Black Laser surface, durable plastic sleeve. The contrasting inscriptions on the colour-coded sleeves mean that it is easy to recognise the correct sizes and this makes it simpler to find the right tool.

Tip: 950 SPKL HF: Hex-Plus, ball-end hexagon on long arm, with holding function for hexagonal socket screws; 950 SPKL: Hex-Plus, ball-end hexagon on long arm, without holding function; 967 SXL HF: With holding function for TORX® screws to Acument Intellectual Properties specification.

Kraftform Kompakt 20 Tool Finder 2 with pouch

**Application:** Suitable for ¼" DIN ISO 1173-C 6.3 and E 6.3 hexagon socket insert bits and Wera Series 1 and 4

**Design:** Attachment, telescopic, Rapidaptor rapid-in, rapid-out, rapid-spin, chuck-all and single-hand technology; “Take it easy” tool finder; Output colour coding and large stamp to enable the desired bit to be easily located; bits with high corrosion protection due to nickel chemical coating.

**Handle:** Kraftform with non-roll feature, multi-component, integrated magazine

NEW
950/9 Hex-Plus Multicolour 2 L-key set, metric, BlackLaser

**Application:** Hexagon socket screws

**Design:** BlackLaser surface, durable plastic sleeve. The contrasting inscriptions on the colour-coded sleeves mean that it is easy to recognise the correct sizes and this makes it simpler to find the right tool.

**Tip:** Hex-Plus, ball-end hexagon on long arm

NEW
Bicycle Set 4

Compact screwdriving tool set for bicycle applications, also for mobile use.

**L-keys with holding function for hexagon socket screws**

The clamping of the screw is achieved by a flexible locking ball. The holding function is especially helpful in confined, hard-to-reach spaces, where there is no room for a second hand to secure the screw.

Kraftform Kompakt Tool Finder 2

The handle/interchangeable blade system allows rapid exchange of the blades required for a wide range of applications.

**Ball-end**

The spherical drive profile means that it is possible to swivel the axis of the tool to that of the screw, and therefore enable angled, “around-the-corner” screwdriving jobs.
Wera’s new socket expertise

We also wanted to transfer the special features of the proven Wera sockets to important special applications.

We listened to our users and found solutions for the following applications:

**Impaktor**

Impact sockets for extreme requirements

- 13
- 13

1/4" 3/8" 1/2"

**VDE bit sockets**

for work under tension

- 6
- 30
- 10

3/8" 3/8" 3/8"
Impaktor sockets for extreme requirements

Impaktor socket for use with electric or pneumatic impact wrenches with 12.5mm = \( \frac{1}{2} \)" drive. The Impaktor technology ensures above-average service life even under extreme working conditions.

With "Take it easy" tool finder with colour coding by size – for easy and fast location of the required tool. With hexagonal profile and grooved socket. For hexagon headed bolts, screws and nuts.
NEW

Belt C Impaktor 1 Socket set, ½" drive

9-piece; robust textile socket belt, including snap hook to enable secure fastening to a belt loop or pocket. Non-woven reverse side and hook and loop strips for simple attachment e.g. to a wall, shelf, tool trolley and to the Wera 2go tool transport system. Fast and easy Twist to Unlock mechanism for secure storage and simple removal of the sockets.

9 Impaktor sockets with ½" drive, with hexagonal profile and grooved socket. For use with electric or pneumatic powered impact wrenches with 12.5mm = ½" drive. “Take it easy” tool finder: Colour coding to enable the desired socket to be easily selected.

NEW

8790 C Impaktor socket with ½" drive

Application: Hexagon headed bolts, screws and nuts

Design: For use with electric or pneumatic impact wrenches with 12.5mm = ½" drive, with retaining pin hole, chrome-molybdenum, matte black finish. “Take it easy” tool finder: Colour coding to enable the desired socket to be easily selected.

Impaktor sockets

For electric or pneumatic impact wrenches

The Impaktor technology ensures above-average service life of the Impaktor socket wrench plug-ins even under extreme conditions.

Profile-friendly power transmission

The hexagon profile allows the transmission of high forces and puts less strain on the edges of bolts or screw heads than a double hexagon profile. Fine-toothed ratchets also make the use of a double hexagon profile superfluous, even in confined spaces, thanks to their small back-pivoting angle.

Cross-bore and ring socket

Due to the groove and the ring socket, the tool can be secured with a locking pin or O-ring on the power tool.

Practical nonwoven strips

The textile belt can be attached by means of the nonwoven reverse side and the hook and loop strips e.g. to a wall, shelf, tool trolley and to the Wera 2go tool transport system.
Deep sockets for low-lying screwdriving and protruding threaded rods

Long 1/4", 3/8", 1/2" manual and mechanical socket wrench inserts (ISO 2725 part 3) from Wera for use in manual and machine operation (non-impact) even with low-lying screwdriving and protruding threaded rods. With “Take it easy” tool finder with colour coding by size – for easy and fast location of the required tool. Easy to grasp even with oily hands, thanks to knurling on the lower end. With hexagonal profile and ball-catching groove. For external hexagonal bolts and sockets.
**NEW**

**Belt A Deep 1 socket set, 1/4" drive**

9-piece; robust textile socket belt, including snap hook to enable secure fastening to a belt loop or pocket. Non-woven reverse side and hook and loop strips for simple attachment e.g. to a wall, shelf, tool trolley and to the Wera 2go tool transport system. Smooth turning Fast and easy Twist to unlock mechanism for secure storage and simple removal of the sockets.

9 sockets with 1/4" drive. Long design for low-profile screwdriving and protruding threaded rods, with hexagonal profile. “Take it easy” tool finder: Colour coding to enable the desired socket to be easily located.

VDE bit sockets for work under tension

VDE 3/8" with increased safety due to yellow insulation core, which becomes visible in case of damage to the outer red VDE insulation layer. Individually tested tool as per IEC 60900 at 10,000 V for safe working at the approved voltage of 1,000 V.

NEW

Belt B VDE 1 Zyklop bit-socket set TORX®/hexagonal socket with holding function, 3/8" drive

10-piece; robust textile socket belt, including snap hook to enable secure fastening to a belt loop or pocket. Non-woven reverse side and hook and loop strips for simple attachment e.g. to a wall, shelf, tool trolley and to the Wera 2go tool transport system. Fast and easy Twist to Unlock mechanism for secure storage and simple removal of the bit-sockets.

10 Zyklop bit sockets, with 3/8" drive. Insulated, individually tested as per IEC 60900. Increased safety due to 2-component insulation with yellow insulation core, which becomes visible in case of damage to the outer red VDE insulation layer. With holding function for TORX® screws made according to Acument Intellectual Properties specifications and hexagonal socket screws. Short bit-sockets with the benefits of the Wera bit technology.

Individually tested

The individual testing at 10,000 volts, in accordance with IEC 60900, ensures safe working with loads up to 1,000 volts.

Practical nonwoven strips

The textile belt can be attached by means of the nonwoven reverse side and the hook and loop strips e.g. to a wall, shelf, tool trolley and to the Wera 2go tool transport system.

Secure hold and easy removal

The all new smooth turning mechanism guarantees both secure and rattle-free storage, yet allows easy removal of the tool.
VDE bit sockets

Bit-sockets with holding function for TORX® screws

The HF tools developed by Wera are ideal because they feature an optimised geometry of the original TORX® profile. The wedging forces resulting from the surface pressure between the drive tip and the screw profile mean that TORX® screws made according to Acument Intellectual Properties specifications are securely held on the tool!

Bit-sockets with holding function for hexagon socket screws

The clamping of the screw is achieved by a flexible locking ball. The holding function is especially helpful in confined, hard-to-reach spaces, where there is no room for a second hand to secure the screw.

Increased security

The Zyklop VDE sockets and extensions offer increased safety thanks to their 2-component isolation with yellow insulation core under red insulation outer layer.

NEW

8740 B VDE HF Zyklop bit-socket, insulated, with holding function, 3/8" drive

Application: Hexagon socket screws

Design: Insulated, individually tested as per IEC 60900. Increased safety due to 2-component insulation with yellow insulation core, which becomes visible in case of damage to the outer red VDE insulation layer. Short bit-sockets with the benefits of the Wera bit technology; with holding function for hexagonal socket screws.

8767 B VDE HF TORX® Zyklop bit-socket, insulated, with holding function, 3/8" drive

Application: TORX® socket screws
Design: Insulated, individually tested as per IEC 60900. Increased safety due to 2-component insulation with yellow insulation core, which becomes visible in case of damage to the outer red VDE insulation layer. Holding function for TORX® screws made according to Acument Intellectual Properties specifications. Short bit-sockets with the benefits of the Wera bit technology; with holding function for hexagonal socket screws.

NEW
8760 B VDE XZN Zyklop bit-socket, insulated, 3/8" drive, for multi-point socket screws

Application: Multi-point socket screws
Design: Insulated, individually tested as per IEC 60900. Increased safety due to 2-component insulation with yellow insulation core, which becomes visible in case of damage to the outer red VDE insulation layer. Short bit-sockets with the benefits of the Wera bit technology; with holding function for hexagonal socket screws.
Wera 2go 2 XL Tool Container

The Wera 2go 2 XL Tool Container with extra low-profile compartments, with its hook and loop fastener system and its compactness, is the ideal solution for individual and convenient tool transport. The inner and outer hook and loop fastener zones provide extremely high flexibility and space utilisation. This fits an incredible amount of tools in and on the container.

Wera 2go 2 XL makes for light luggage, because only the essential tools are taken. The robust and sturdy material protects the enclosed tools from damage and moisture, and increases the service life of the tool container. The padded and adjustable wide belt and the close-fitting position of the container provide a comfortable fit. The hands remain free during transport.

Including one Wera 2go 4 Tool Quiver with individually adjustable hook and loop fastener divider for screwdrivers and other tools. Four of these holders can be stowed effortlessly.

Robust and dimensionally stable

The robust and dimensionally stable material protects the tools carried against damage and moisture and enhances the service life of the tool container.

NEW

Wera 2go 2 XL Tool Container

Many tools can be taken in this particularly large tool container (Wera 2go 2 XL: 455.0x330.0x170.0 mm; Wera 2go 2: 355.0x330.0x115.0 mm). Up to four Wera 2go 4 Tool Quivers can be stored in the XL container. This ensures order and clarity of contents.
BiTorsion Bits

BiTorsion bits are absolutely premium products. They have a softer BiTorsion zone which reduces the hardness of the shaft by about 20% in comparison to the drive tip. This means that the peak loads that cause bit breakage and premature wear are absorbed in this zone — something which enhances the service life of the bits.

Kraftform Micro bit holder

Slim Kraftform Micro bit holder with Micro bits.

Wacken Set 1

A must for every Wacken festival-goer!

The ultimate festival set for survival in (almost) every difficult situation. In W:O:A design with Wacken logo for outing as a Wacken festival fan. A 17-piece tool set for successful repairs on large festival fun items such as campers, tents, buses, but also on small objects such as glasses, shisha, e-cigarettes or many technical devices.
NEW

Wacken Set 1

17-piece set with 1 817 R bit-holding screwdriver handle with telescopic blade and Rapidaptor quick-release chuck; suitable for 1/4" DIN ISO 1173-C 6.3 and E 6.3 hexagon socket insert bits and Wera Series 1 and 4

With “Take it easy” tool finder: with colour coding by size as well as size stamping - for easy and quick location of the desired bit. Six Micro Vario bits, tough, for universal use.

The tool set to go

The Bicycle Set 1 contains tools for the most popular screw profiles on road bikes, mountain bikes and e-bikes. Thanks to the compact textile-folding pouch, the set is also the ideal companion for cycling tours.
16 piece-set; in a surface protecting, compact and extremely robust textile box; low volume and weight for simplified mobility.

1 Click-Torque torque wrench A 5 with 1/4" square drive, covering a range of 2.5 Nm-25 Nm, accuracy ± 4% of the set value, as per DIN EN ISO 6789-1: 2017-07, for clockwise torque control, reversible ratchet, 45 teeth, easy setting and saving of the desired torque value, with audible and tactile locking when the scale values are reached (fine scale only in Newton meters), audible and tactile release mechanism when the set torque value is reached, ergonomic 2-component handle, 4 Zyklop sockets, with 1/4" drive, 4 Zyklop bit sockets for TORX® screws, with 1/4" drive, with holding function, 7 bit sockets for hexagon socket screws with 1/4" drive with holding function; “Take it easy” tool finder: Colour coding to enable the desired bit socket to be easily selected

**Click-Torque A 5 torque wrench**

**Simple and safe**

Easy setting and saving of the desired torque value; readable on the main and fine scales.

**Simple setting**

With audible and tactile clicks when adjusting the scale values.

**Release mechanism**

When the set torque value is reached, an audible and tactile mechanism triggers.
Click-Torque A 6 Set 1

20 piece-set; in a surface protecting, compact and extremely robust textile box; low volume and weight for simplified mobility.

1 Click-Torque A 6 torque wrench with 1/4" hexagon drive, covering a range of 2.5 Nm-25 Nm, accuracy ± 4% of the set value, as per DIN EN ISO 6789-1: 2017-07, for clockwise torque control, reversible ratchet, 45 teeth, easy setting and saving of the desired torque value, with audible and tactile locking when the scale values are reached (fine scale only in Newton meters), audible and tactile release mechanism when the set torque value is reached, ergonomic 2-component handle, 6 Zyklop sockets, 1 adapter 1/4", hexagon to 1/4” square, 1 Zyklop extension with free-turning sleeve, short,11 bits

Click-Torque C 3 Set 1

13 piece-set; in a surface protecting, compact and extremely robust textile box; low volume and weight for simplified mobility.

1 Click-Torque torque wrench C 3 with 1/2" square drive, covering a range of 40 Nm-200 Nm, accuracy ± 3% of the set value, as per DIN EN ISO 6789-1: 2017-07, for clockwise torque control, reversible ratchet, 45 teeth, easy setting and saving of the desired torque value, with audible and tactile locking when the scale values are reached (fine scale only in Newton meters), audible and tactile release mechanism when the set torque value is reached, ergonomic 2-component handle, 4 Zyklop sockets, 4 Zyklop bit sockets with holding function for TORX® screws made according to Acument Intellectual Properties specifications, 3 Zyklop bit sockets with holding function for hexagon socket screws, 1 Zyklop extension with free-turning sleeve.

Wera 2go

Variable thanks to the hook and loop fastener system

The inner and outer hook and loop fastener sections mean that other Wera 2go system components can be just as easily attached as all other Wera tools in boxes and pouches with hook and loop fastener zones. This enables an individual composition of the tools needed for a specific job.
The ratchet head pivots freely and can be locked into any defined position by using the slide switch that is positioned on either side. It is even possible to work in very confined and difficult-to-access areas with enhanced hand clearance. The predefined locking at 0°, 15° and 90°, both to the right and left, ensure safe working without any slipping of the ratchet head.

The clamping of the screw is achieved by a twin spring loaded ball retention system. The tubing is effectively protected against mechanical wear and tear by a steel ring. The holding function is especially helpful in confined, hard-to-reach spaces, where there is no room for a second hand to secure the screw.

8100 SA 7 Zyklop Metal Ratchet Set with push-through square, 1/4" drive, metric

28-piece set; in a surface-preserving, compact and extremely robust textile box, low volume and weight for simplified mobility

1 Zyklop Metal Ratchet with push-through square and 1/4" drive, 9 Zyklop sockets, 1 Zyklop extension (long) with free-turning sleeve, 1 wobble extension, 1 adaptor with quick-release chuck, 15 bits

"Take it easy" tool finder

"Take it easy" tool finder system - with profile and size colour-coding for quick and easy tool selection. Colour-coded system for hexagon drive screws (L-Keys, Zyklop bit sockets), external hex drive screws and nuts (Joker wrenches, Zyklop sockets and Zyklop bit sockets with holding function), and TORX® drive screws (L-Keys, Zyklop bit sockets).
8100 SB 7 Zyklop Metal Ratchet Set with push-through square, 3/8" drive, metric

29-piece set; in a surface-preserving, compact and extremely robust textile box; low volume and weight for simplified mobility

1 Zyklop Metal Ratchet with 3/8" drive, 9 Zyklop sockets, 1 Zyklop extension (long) with free-turning sleeve, 1 wobble extension, 1 adaptor with quick-release chuck, 16 bits

8100 SC 7 Zyklop Metal Ratchet Set with push-through square, 1/2" drive, metric

28-piece set; in a surface-preserving, compact and extremely robust textile box; low volume and weight for simplified mobility

1 Zyklop Metal Ratchet with push-through square and 1/2" drive, 10 Zyklop sockets, 1 Zyklop extension (long) with free-turning sleeve, 1 wobble extension, 1 adaptor with quick-release chuck, 14 bits

28-piece set: in a surface-preserving, compact and extremely robust textile box; low volume and weight for simplified mobility.
1 Zyklop Metal Ratchet with switch lever and 1/2" drive, 10 Zyklop sockets, 1 Zyklop extension (long) with free-turning sleeve, 1 wobble extension, 1 adaptor with quick-release chuck, 14 bits.

---

**Small return angle**

Fine-pitched with 72 teeth for a return angle of only 5°.

**Reversible**

Switch lever for convenient change of direction.
10-piece; robust textile socket belt, including snap hook to enable secure fastening to a belt loop or pocket. Non-woven reverse side and hook and loop strips for simple attachment e.g. to a wall, shelf, tool trolley and to the Wera 2go tool transport system. Fast and easy Twist to Unlock mechanism for secure storage and simple removal of the sockets.

Belt A 1 Zyklop socket set with holding function, 1/4" drive

- 9 Zyklop sockets with 1/4" drive with fastener holding function. "Take it easy" tool finder: Colour coding to enable the desired socket to be easily selected. 1 tool for the simple removal of nuts from sockets with holding function.

Belt A 2 Zyklop In-Hex-Plus bit socket set with holding function, 1/4" drive

- 8 piece; robust textile socket belt, including snap hook to enable secure fastening to a belt loop or pocket. Non-woven reverse side and hook and loop strips for simple attachment e.g. to a wall, shelf, tool trolley and to the Wera 2go tool transport system. Fast and easy Twist to Unlock mechanism for secure storage and simple removal of the sockets.

Belt A 3 TORX® HF Zyklop bit socket set with holding function, 1/4" drive

- 9-piece; robust textile socket belt, including snap hook to enable secure fastening to a belt loop or pocket. Non-woven reverse side and hook and loop strips for simple attachment e.g. to a wall, shelf, tool trolley and to the Wera 2go tool transport system. Fast and easy Twist to Unlock mechanism for secure storage and simple removal of the tool sockets.

Belt A 4 Zyklop socket set, 1/4" drive

- 9-piece; robust textile socket belt, including snap hook to enable secure fastening to a belt loop or pocket. Non-woven reverse side and hook and loop strips for simple attachment e.g. to a wall, shelf, tool trolley and to the Wera 2go tool transport system. Smooth turning Fast and easy Twist to Unlock mechanism for secure storage and simple removal of the sockets.

9 Zyklop bit sockets for TORX® screws, with 1/4" drive, with holding function. "Take it easy" tool finder: Colour coding to enable the desired bit socket to be easily selected.
8740 A HF: Zyklop bit socket with holding function

The clamping of the screw is achieved by a twin spring load ed ball retention system. The tubing is effectively protected against mechanical wear and tear by a steel ring. The holding function is especially helpful in confined, hard-to-reach spaces, where there is no room for a second hand to secure the screw.

**Belt A Imperial 1 Zyklop In-Hex-Plus bit socket set with holding function, 1/4" drive**

- **8740 A:**
  - 9-piece: robust textile socket belt, including snap hook to enable secure fastening to a belt loop or pocket. Non-woven reverse side and hook and loop strips for simple attachment e.g. to a wall, shelf, tool trolley and to the Wera 2go tool transport system. Fast and easy Twist to Unlock mechanism for secure storage and simple removal of the sockets.
  - 9 bit sockets for hexagon socket screws with 1/4" drive with holding function (sizes: 5/64", 3/32" and 7/64" without holding function) and Hex-Plus high torque geometry. "Take it easy" tool finder: Colour coding to enable the desired bit socket to be easily selected.

**Belt B 1 Zyklop socket set with holding function, 3/8” drive**

- **Belt B 0/8:**
  - 10-piece: robust textile socket belt, including snap hook to enable secure fastening to a belt loop or pocket. Non-woven reverse side and hook and loop strips for simple attachment e.g. to a wall, shelf, tool trolley and to the Wera 2go tool transport system. Fast and easy Twist to Unlock mechanism for secure storage and simple removal of the sockets.
  - 9 Zyklop sockets with 3/8" drive with fastener holding function. "Take it easy" tool finder: Colour coding to enable the desired socket to be easily selected. 1 tool for the simple removal of nuts from sockets with holding function.

**Comes with convenient snap hook**

The robust textile belt can be secured to a belt loop or pocket by means of the snap hook.

**Nut extractor tool**

This tool enables hexagon nuts to be easily removed from sockets with holding function.
Belt B 2 Zyklop In-Hex-Plus bit socket set with holding function, 3/8” drive

8-piece; robust textile socket belt, including snap hook to enable secure fastening to a belt loop or pocket. Non-woven reverse side and hook and loop strips for simple attachment e.g. to a wall, shelf, tool trolley and to the Wera 2go tool transport system. Fast and easy Twist to Unlock mechanism for secure storage and simple removal of the sockets.

8 bit sockets for hexagon socket screws with 3/8” drive with holding function and Hex-Plus high torque geometry. “Take it easy” tool finder: Colour coding to enable the desired bit socket to be easily selected.

Belt B 3 TORX® HF Zyklop bit socket set with holding function, 3/8” drive

9-piece; robust textile socket belt, including snap hook to enable secure fastening to a belt loop or pocket. Non-woven reverse side and hook and loop strips for simple attachment e.g. to a wall, shelf, tool trolley and to the Wera 2go tool transport system. Fast and easy Twist to Unlock mechanism for secure storage and simple removal of the tool sockets.

9 Zyklop bit sockets for TORX® screws, with 3/8” drive, with holding function. “Take it easy” tool finder: Colour coding to enable the desired socket to be easily selected.

Belt B 4 Zyklop socket set, 1/2” drive

9-piece; robust textile socket belt, including snap hook to enable secure fastening to a belt loop or pocket. Non-woven reverse side and hook and loop strips for simple attachment e.g. to a wall, shelf, tool trolley and to the Wera 2go tool transport system. Smooth turning Fast and easy Twist to Unlock mechanism for secure storage and simple removal of the tool sockets.

9 Zyklop sockets with 1/2” drive. “Take it easy” tool finder: Colour coding to enable the desired socket to be easily selected.

Belt C 1 Zyklop socket set with holding function, 1/2” drive

7-piece; robust textile socket belt, including snap hook to enable secure fastening to a belt loop or pocket. Non-woven reverse side and hook and loop strips for simple attachment e.g. to a wall, shelf, tool trolley and to the Wera 2go tool transport system. Fast and easy Twist to Unlock mechanism for secure storage and simple removal of the tool sockets.

6 Zyklop sockets with 1/2” drive with fastener holding function. “Take it easy” tool finder: Colour coding to enable the desired socket to be easily selected. 1 tool for the simple removal of nuts from sockets with holding function.
Belt C 2 Zyklop In-Hex-Plus bit socket set with holding function, \(\frac{1}{2}\)" drive

6-piece; robust textile socket belt, including snap hook to enable secure fastening to a belt loop or pocket. Non-woven reverse side and hook and loop strips for simple attachment e.g. to a wall, shelf, tool trolley and to the Wera 2go tool transport system. Fast and easy Twist to Unlock mechanism for secure storage and simple removal of the sockets.

6 bit sockets for hexagon socket screws with \(\frac{1}{2}\)" drive with holding function and Hex-Plus high torque geometry. "Take it easy" tool finder: Colour coding to enable the desired bit socket to be easily selected.

Belt C 0/6 1 x 45,0x275,0
**8007 B VDE Zyklop ratchet, insulated, with switch lever, \( \frac{3}{8} " \) drive**

**Application:** 3/8" square sockets as well as 3/8" adaptors with square drive, with ball locking device

**Design:** Individually tested as per IEC 60900 at 10,000V for safe working at the approved voltage of 1,000V; slim design to enable work in very confined spaces; fine-tooth mechanism with 80 teeth for a return angle of only 4.5°; switch lever for convenient change of direction; secure socket locking function by push button

---

**For tight spaces**

The extremely slim design of the Zyklop VDE ratchet makes it easy to work, even in confined spaces.

**Ball lock**

The ball lock ensures sockets and accessories are securely fitted, providing increased safety during operation. A short press on the release button allows the tool to be changed quickly.

**Switch lever**

Switch lever for convenient change of direction.

---

**8100 SB VDE 1 Zyklop Ratchet set, insulated, switch lever, \( \frac{3}{8} " \) drive, metric**

- **Application:** 3/8" square sockets as well as for 3/8" adaptors with square drive, workshop trolley and the Wera 2go tool transport system.
- **Design:** Individually tested as per IEC 60900 at 10,000V for safe working at the approved voltage of 1,000V; slim design to enable work in very confined spaces; fine-tooth mechanism with 80 teeth for a return angle of only 4.5°; switch lever for convenient change of direction; secure socket locking function by push button.

1 Zyklop Ratchet 8007 B VDE, with switch lever, with \( \frac{3}{8} " \) drive, 14 Zyklop VDE sockets, 2 Zyklop VDE extensions, one long, one short, all tools insulated, individually tested as per IEC 60900 at 10,000V for safe working at the approved voltage of 1,000V. The Zyklop VDE sockets and extensions offer increased safety through 2-component isolation with yellow insulation core, which becomes visible in case of damage to the outer red VDE insulation layer.

For tight spaces The extremely slim design of the Zyklop VDE ratchet makes it easy to work, even in confined spaces.

Ball lock The ball lock ensures sockets and accessories are securely fitted, providing increased safety during operation. A short press on the release button allows the tool to be changed quickly.

Switch lever Switch lever for convenient change of direction.

---

17 pieces; in a surface-preserving, compact and extremely robust textile box; low volume and weight for simplified mobility. Fleece backing and hook and loop fastener system for easy attachment, e.g. on wall, shelf, workshop trolley and the Wera 2go tool transport system. Smooth rotating mechanism for safe storage and easy removal of the Zyklop VDE sockets.

**Holding function**

The Joker’s holding function means that nuts and bolts can be held in the jaw and easily positioned where they are needed. Fastening on to the thread can then be done quickly and safely, thanks to the innovative special stop-plate which holds the fastener. No more time-wasting searches for dropped nuts and bolts! After applying and positioning the nut or bolt, fastening can begin immediately – no additional tools required.

**Integrated limit-stop**

Constant re-positioning of the wrench? Difficulty holding fasteners in confined spaces? Easing off to avoid any risks of injury or fastener damage? That was yesterday. Today, the Joker prevents slipping off of the fastener head with its integrated limit-stop – no longer is the thumb needed to act as a depth stop. This makes applications much easier and allows significantly more force to be applied during fastening jobs.

**Small return angle**

Instead of 60°, the Joker only has a 30° return angle thanks to it’s unique double-hex design. Along with the Joker’s straight neck, this means that flipping the wrench has become a thing of the past. With the Joker, you can now loosen and tighten nuts and bolts, in situations where conventional tools fail. Particularly in confined spaces, where conventional open-jawed wrenches cannot be used. The combination of limit stop and small return angle enables effective work, even on screw pipe connections.
Kraftform Kompakt 60

Handle/interchangeable blade system

The handle/interchangeable blade system allows rapid exchange of the blades required for a wide range of applications.

Storage and transport

The tools can be stored and carried either in a solid plastic case or a robust pouch. In this way the tool is always to hand.

Pouch with 89 mm bits
17-piece set
1 Kraftform bitholding screwdriver 816 R with Rapidaptor quick-release chuck

Kraftform Kompakt SH 2 PlumbKit

15-piece set; in a surface-preserving, compact and extremely robust textile box, low volume and weight for simplified mobility.

1 Kraftform chiseldriver 932 A (slotted) with pound-thru hexagonal blade and integrated impact cap for screwdriving and light chiselling; 2 socket wrench screwdrivers 395 HO with hollow shaft for tightening or loosening nuts on protruding threaded rods as well as fixed screws; 1 Kraftform Kompakt VDE handle, 4 Kraftform Kompakt VDE interchangeable blades with reduced blade diameter and integrated protective insulation, so low-lying screws can be accessed, individually tested as per IEC 60900; 1 voltage tester 247, 2 Joker Switch ratcheting combination wrenches with holding function for nuts and bolts, protecting against slippage, double hexagon geometry and extremely hard tips on the metal plate to protect against slippage at high torques, with a small return angle of 30°, switch lever for a comfortable direction change, ring end angled at 15° from the handle; 4 L-keys with Hex-Plus profile (prevents the rounding of hexagon socket screws), with holding function for hexagon socket screws, hexagonal ball-end on the long arm, BlackLaser surface, plastic sleeve, all L-keys are easily identified by their colour coding and size marking.

Product not available in the USA and Canada.

Kraftform Kompakt 60

Handle/interchangeable blade system

The handle/interchangeable blade system allows rapid exchange of the blades required for a wide range of applications.

Storage and transport

The tools can be stored and carried either in a solid plastic case or a robust pouch. In this way the tool is always to hand.
Kraftform Kompakt W 1 Maintenance

The perfect set for diverse maintenance jobs both indoors as well as outdoors - applications: electronics, mechatronics, building technology, photovoltaic etc. etc. etc.

Handle/interchangeable blade system – Kraftform Kompakt VDE

The handle/interchangeable blade system allows rapid exchange of the blades required for a wide range of applications.
Tool-Check PLUS

28 bits, 1 hand holder 813 suitable for the attachment of bits with \( \frac{1}{4} " \) hexagon drive as per DIN ISO 1173-C 6.3 and Wera connection series 1, 1 Rapidaptor bit holder, 1 adaptor 870/1 (\( \frac{1}{4} " \) hexagon to \( \frac{3}{4} " \) square), 7 sockets (\( \frac{1}{4} " \)); 1 Wera Bit Ratchet Zyklop Mini 1, drop-forged full steel design suitable for the attachment of bits with \( \frac{1}{4} " \) hexagon drive as per DIN ISO 1173-C 6.3 and E 6.3 and Wera connection series 1 and 4; the use of \( \frac{1}{4} " \) sockets is also possible with the application of the Wera adaptor 870/1.

Bit-Check 30 Metal 1

1 universal bit holder with stainless steel sleeve, retaining ring, and strong permanent magnet, 29 bits, tough, for universal use.

Application: Phillips screws
Drive: \( \frac{1}{4} " \) hexagon, suitable for DIN ISO 1173-D 6.3 bit holders
Design: The Impaktor technology ensures an above-average service life even under extreme conditions thanks to a best possible utilisation of the material properties and optimally designed geometry, particularly suitable for use with conventional impact drivers, the rough diamond coating reduces the danger of any slipping out of the screw head due to the enhanced frictional resistance. “Take it easy” tool finder: Output colour coding (red = Phillips) and large stamp to enable the desired bit to be easily located.

Bit-Check 30 Wood 2

1 universal bit holder with stainless steel sleeve, retaining ring, and strong permanent magnet, 29 bits, tough, for universal use.

Bit-Check 30 TX Universal 1

1 universal bit holder with stainless steel sleeve, retaining ring, and strong permanent magnet, 29 bits, tough, for universal use.

Bit-Box 15 Impaktor PH

Application: Phillips screws
Drive: \( \frac{1}{4} " \) hexagon, suitable for DIN ISO 1173-D 6.3 bit holders
Design: The Impaktor technology ensures an above-average service life even under extreme conditions thanks to a best possible utilisation of the material properties and optimally designed geometry, particularly suitable for use with conventional impact drivers, the rough diamond coating reduces the danger of any slipping out of the screw head due to the enhanced frictional resistance. “Take it easy” tool finder: Output colour coding (red = Phillips) and large stamp to enable the desired bit to be easily located.
**Bit-Box 15 Impaktor PZ**

- **Application:** Suitable for Pozidriv screws
- **Drive:** ¼” hexagon, suitable for DIN ISO 1173-D 6.3 bit holders
- **Design:** The Impaktor technology ensures an above-average service life even under extreme conditions thanks to a best-possible utilisation of the material properties and optimally designed geometry, particularly suitable for use with conventional impact drivers, the rough diamond coating reduces the danger of any slipping out of the screw head due to the enhanced frictional resistance. “Take it easy” tool finder: Output colour coding (black = Pozidriv) and large stamp to enable the desired bit to be easily located.

**Bit-Box 15 Impaktor TX**

- **Application:** TORX® socket screws
- **Drive:** ¼” hexagon, suitable for DIN ISO 1173-D 6.3 bit holders
- **Design:** The Impaktor technology ensures an above-average service life even under extreme conditions thanks to a best-possible utilisation of the material properties and optimally designed geometry, particularly suitable for use with conventional impact drivers, the rough diamond coating reduces the danger of any slipping out of the screw head due to the enhanced frictional resistance. “Take it easy” tool finder: Output colour coding (green = TORX®) and large stamp to enable the desired bit to be easily located.

**Bit-Box 20 BTH PZ**

- **Application:** Suitable for Pozidriv screws
- **Drive:** ¼” hexagon, suitable for DIN ISO 1173-D 6.3 bit holders
- **Design:** BiTorsion for long service life, extra-tough, for universal use. “Take it easy” tool finder: Output colour coding (black = Pozidriv) and large stamp to enable the desired bit to be easily located.

**Bit-Box 20 BTZ PH**

- **Application:** Phillips screws
- **Drive:** ¼” hexagon, suitable for DIN ISO 1173-D 6.3 bit holders
- **Design:** BiTorsion for long service life, extra-tough, for universal use. “Take it easy” tool finder: Output colour coding (red = Phillips) and large stamp to enable the desired bit to be easily located.

**Bit-Box 20 BTZ PZ**

- **Application:** Suitable for Pozidriv screws
- **Drive:** ¼” hexagon, suitable for DIN ISO 1173-D 6.3 bit holders
- **Design:** BiTorsion for long service life, extra-tough, for universal use. “Take it easy” tool finder: Output colour coding (black = Pozidriv) and large stamp to enable the desired bit to be easily located.
Bit-Box 20 BTZ TX

Application: TORX® socket screws
Drive: 1/4" hexagon, suitable for DIN ISO 1173-D 6.3 bit holders
Design: BiTorsion for long service life, extra-tough, for universal use. "Take it easy" tool finder: Output colour coding (green = TORX®) and large stamp to enable the desired bit to be easily located.

3950/9 Hex-Plus Multicolour Stainless 1 L-key set, metric, stainless

- **Application:** Hexagon socket screws
- **Design:** Stainless steel, durable plastic sleeve. The contrasting inscriptions on the colour-coded sleeves mean that it is easy to recognise the correct sizes and this makes it simpler to find the right tool.
- **Tip:** Hex-Plus, ball-end hexagon on long arm

950/9 Hex-Plus Multicolour HF 1 L-key set, metric, BlackLaser, with holding function

- **Application:** Hexagon socket screws
- **Design:** BlackLaser surface, durable plastic sleeve. The contrasting inscriptions on the colour-coded sleeves mean that it is easy to recognise the correct sizes and this makes it simpler to find the right tool.
- **Tip:** Hex-Plus, ball-end hexagon on long arm, holding function for hexagon socket screws, sizes: 1.5, 2.0 and 2.5 without holding function
**L-keys 950 L HF: With retaining function on long arm**

The clamping of the screw is achieved by a flexible locking ball. The holding function is especially helpful in confined, hard-to-reach spaces, where there is no room for a second hand to sec.

---

**"Take it easy" tool finder system**

"Take it easy" tool finder system – with profile and size colour-coding for quick and easy tool selection. Colour-coded system for hexagon drive screws (L-Keys, Zyklop bit sockets), external hex drive screws and nuts (Joker wrenches, Zyklop sockets and Zyklop bit sockets with holding function), and TORX® drive screws (L-Keys, Zyklop bit sockets).

---

**950/9 Hex-Plus Multicolour 1 SB Multicolour L-key set, metric, BlackLaser**

Application: Hexagon socket screws

Design: BlackLaser surface, durable plastic sleeve. The contrasting inscriptions on the colour-coded sleeves mean that it is easy to recognise the correct sizes and this makes it simpler to find the right tool.

Tip: Hex-Plus, ball-end hexagon on long arm

9-piece set in a two-component clip

---

**950/9 Hex-Plus HF 1 L-key set, metric, chrome-plated, with holding function**

Application: Hexagon socket screws

Design: Chrome-plated

Tip: Hex-Plus, holding function for hexagon socket screws on long arm, sizes: 1.5, 2.0 and 2.5 without holding function

9-piece set in a two-component clip

The contrasting inscriptions on the colour-coded sleeves mean that it is easy to recognise the correct sizes and this makes it simpler to find the right tool.

| 967 SL TORX® HF | 1 x TX 8x76; 1 x TX 9x79; 1 x TX 10x85; 1 x TX 15x90; 1 x TX 20x96; 1 x TX 25x104; 1 x TX 27x112; 1 x TX 30x122; 1 x TX 40x132 |

TORX® ball-end
The spherical drive profile means that it is possible to swivel the axis of the tool to that of the screw, and therefore enable angled, “around-the-corner” screwdriving jobs.

Holding function for recessed TORX® screws
The HF tools developed by Wera are ideal because they feature an optimised geometry of the original TORX® profile. The wedging forces resulting from the surface pressure between the drive tip and the screw profile mean that TORX® screws made according to Acument Intellectual Properties specifications are securely held on the tool!

With thermoplastic sleeve
L-keys with a thermoplastic sleeve are manufactured out of easy-to-grip, circular material. The sleeve ensures that work is safe and comfortable even at low temperatures. Colour coding and large stamp to enable the desired L-key to be easily located.
Kraftform Micro 12 Universal 1 Screwdriver set for electronic applications

**Application:** Slotted and Phillips screws, TORX® socket screws, and Hexagon socket screws

**Content:** 12-piece set, in a belt pouch

Kraftform Micro: Applications

Indispensable for many users, including electronics technicians, opticians, precision engineers, jewellers, EDP hardware fitters and model-makers.

Kraftform Micro: The refined screwdriver for electronics technicians

The Kraftform Micro, with its three zones and their specific arrangement, satisfies these requirements perfectly. The free-turning cap that provides support for the hand works with these advantages, enabling quick and easy precision work.

395 HO: With hollow shaft

The 395 HO screwdrivers have a hollow shaft that can accommodate protruding threaded rods. This is particularly useful when installing/removing mixer taps on washbasins.

Kraftform: Rapid hand repositioning

The hard materials used for the handle ensure rapid hand repositioning without any danger of the skin "sticking" to the handle. The surrounding hard zones with large diameters glide like wheels across the hand.
